

GM Recall of Vehicles with 6.2L V8 L87 Engine, 2021-2024

The recall affects the following GM vehicles equipped with the 6.2L V8 (L87) engine, manufactured between **March 1, 2021** and **May 31, 2024**:

- 2021-2024 Cadillac Escalade
- 2021-2024 Cadillac Escalade ESV
- 2021-2024 Chevrolet Silverado 1500
- 2021-2024 Chevrolet Suburban
- 2021-2024 Chevrolet Tahoe
- 2021-2024 GMC Sierra 1500
- 2021-2024 GMC Yukon
- 2021-2024 GMC Yukon XL

RECOMMENDATION:

- Advise customer of recall
- Recommend OW-40 instead of OW-20
- Advise customer to have vehicle inspected by authorized GM dealer or repair shop

Important: Owners of non-recalled vehicles should NOT switch to OW-40 oil as it could void their warranty.
